

ISHIKA DUBEY

ishika.idc@gmail.com | +91 8795885888 | [GITHUB](#) | [LINKEDIN](#)

Skills

- **Programming Languages** : Go | Python | Java | HTML | CSS | Javascript
- **Frameworks & Libraries** : Go Fiber | Fast Api | React.js | Spring Boot(basics)
- **Databases**: MySQL | Redis | Postgress | MongoDB | EHRbase
- **Authentication And Authorization** : Keycloak
- **Containers Deployment & Development Tools**: VS Code | Postman | Git | Github | Docker | Nginx
- **Architectures** : Microservices | MVC | Vertical Slice

Experience

Persistent Systems

October 2025 – Present

Lead Software Engineer

Bengaluru

- Backend Engineer at BCD TripTech, implementing airline onboarding using IATA NDC standards in a production system.
- Delivered 10+ stories and critical bug fixes in 2 months, consistently meeting sprint deadlines.
- Owned end-to-end integration features, achieving successful client approvals and production readiness.
- Contributed to an agentic automation solution reducing airline integration timelines from 6-7 months to days.

BDI Plus Lab Pvt.Ltd

November 2024 – October 2025

SDE-2 – Backend Developer | ModenX ,On-Site

Bengaluru

- Optimized core backend APIs, reducing latency from 25s to <2s.
- Collaborated cross-functionally with marketing and CRM teams to deliver revenue-driving features.

Deployment Manager – Efficiency (Remote)

- Managed critical deployments for Redis-heavy backend; resolved architectural blockers and enabled smooth production rollouts.
- Leading automation R&D to replace manual deployment with a streamlined pipeline.

ProbePlus Innovative Solution Pvt Ltd

September 2023 – November2024

SE-1 Backend Developer, On-Site

Bengaluru

Automated Patient Communication System | Python , MongoDb , AWS Tesseract , Pandas

- Implemented a Python backend with **AWS Tesseract** to automate patient communication via SMS, WhatsApp, and email, enhancing engagement and **reducing manual effort**.
- Core Backend Contributor – HMS (ABHA Integration)
- Led backend development for HMS with ABHA integration, ensuring NDHM compliance and secure health data exchange.
- Architected and delivered ABHA-compliant backend for HMS, enabling seamless patient onboarding and health record syncing.

FHIR and OpenEHR Backend | Java , SpringBoot , MySQL , FHIR , OpenEHR , EHRBase

- Oversaw and coordinated with **ABHA and C-DAC** to build a backend using JAVA springboot for seamless **EMR conversion and interoperability** between FHIR and OpenEHR, ensuring efficient health data management.

WebSocket Server for Live ECG Data | Go (Socket.IO) , MongoDB

- Built an emergency solution with Go (Socket.IO) for **real-time ECG transmission**, fetching data from a remote server and storing **1M+ records in MongoDB**, enabling doctors to monitor **live updates remotely**.

Bout Backend for Web and Android App | Go , Keycloak , MQTT , MongoDB, React.js

- Designed a scalable backend with **7 modules** using Go, Keycloak for **role-based authorization**, and **MQTT for real-time sync** between web and mobile platforms, enhancing performance and user experience.
- Additionally, supported frontend development using **React.js due to shortage of resources**, ensuring **seamless integration and timely project completion**.

Digital Divide Data | Python, AWS, ML, YOLO, HaarCascade
Python Developer Intern , Remote

April 2022 – August 2022

- **Collaborated with a diverse global team** to transform and clean client data, assisting in **training models** for optimal results. Designed algorithms for **faster face detection and efficient disease diagnosis through minimal questioning**, enhancing project impact and client outcomes.

Education

AMC Engineering College, VTU, India

August 2019 – May 2023

- BE, CSE | CGPA: 9.03/10.00

Positions Of Responsibility

- Hackathon Judge – Judged Hackzion V.2, a national-level hackathon at AMC Engineering College (Feb 2025).
- Orientation Speaker – Delivered sessions on presentation skills and entrepreneurship for college orientation events.
- Google AI Immersion Day Invitee – Selected for exclusive event supporting high-potential AI startups.
- Mentor & Trainer – Contributed to technical training programs at Tap Academy.

Certification

- Earned Microsoft Azure AI Fundamentals (AI-900), strengthening foundation in AI-driven system design.
